12w high frequency inverter

Overview

What is a 1000W 12v hybrid inverter?

A 1000W 12v hybrid inverter is a device that can run Wifi and laptops, some lights and small tools. It has built-in AC and solar chargers, allowing for cost-saving or off-grid usage. It also serves as a backup for small items and requires one 12v battery.

What is a high frequency inverter?

A high frequency inverter is a type of UPS (Uninterruptible Power Supply) that uses a microprocessor as its process control center. It employs software programming to control its operation, unlike traditional analog circuits.

What is a 12V inverter?

A 12V inverter is a device that converts 12V DC electric from your leisure batteries into the standardised AC current in your country of origin (120AC for the states, 240AC for the UK). It integrates into the electrical setup inside your campervan.

What is a hybrid solar inverter?

This advanced functionality ensures maximum energy harvesting from your solar panels. The Bluesun 10kW/12kW Hybrid Inverter is designed to optimize solar power efficiency with support for two independent solar inputs and simultaneous dual maximum power point tracking (MPPT) capabilities.
