How to buy solar panels from China?

Follow these steps to buy your solar panels from China: Search for suppliers with your required specifications of solar panels from directories and B2B portals like Alibaba, Global Sources, Made-in-China, etc. You can also find the suppliers by searching directly through their websites. Get a quote from 4 to 5 suppliers for your requirements.

Why are solar panels made in China?

Low labor costs alone no longer constitute the sole advantage of Chinese manufacturing today. China boasts the world's most comprehensive industrial system, especially evident in the photovoltaic industry. In China, suppliers for nearly any solar product and accessory can be found.

Where are solar panels made?

China is the world's largest solar power producer and 80% of the world's solar panels are made in China. They not only stand out at the top of the list of the biggest solar panel suppliers but also account for a large share of the US residential solar market.
