16 UPS battery cabinets assembled

Overview

What are Arimon battery cabinets?

Arimon uninterruptible power supply (UPS) backup battery cabinets are available for either front access batteries or top terminal (monobloc) batteries. All battery cabinets are constructed from heavy gauge steel with a durable welded frame and acid resistant powder coated finish available in a wide range of colors.

What is a battery cabinet?

Battery cabinet that includes Lithium-ion batteries, Battery Management System (BMS), switchgear, power supply, and communication interface. Reduces the battery room size and increases tolerance to a wider operating temperature range, which allows you to decrease the capacity of the cooling solution.

Does unified power offer battery cabinets?

Unified Power offers a complete line of battery cabinets for both UPS and Telecom Applications. These cabinets can be configured to match OEM cabinets and offer a competitive option for system upgrades or new projects. Features Space saving foot print is the industry's most compact design.

Are our 12V front terminal battery cabinets UL certified?

Our 12V Front Terminal Battery Cabinets are UL and seismic certified. Removable side panels offer additional cost savings when paralleling multiple strings. Like the 12V Front Terminal Cabinets, our 16V Front Terminal Battery Cabinets boast the tightest footprints in the industry, especially our 550 WPC battery cabinet.
