# **40-foot Folding Container Cost-Effectiveness**

## Overview

---

Could a five-in-one foldable container design boost efficiency?

A five-in-one foldable container design certified by the International Geneva-based International Standard Organization (ISO) could boost efficiency and transform the carriages of empties, claims Florida-based Compact Container Systems (CCS). The SeaFold container opened out and stacked Credit: Compact Container Systems.

What is seafold HC 40?

Compact Container Systems (CCS) has launched the SeaFold HC 40' container, the world's first five-in-one, foldable shipping container to improve operating inefficiencies, reduce unnecessary container movements, and dramatically reduce carbon emissions throughout the transportation and logistics supply chain.

Will the seafold 40 reduce the cost of repositioning containers?

With over 20 percent of all ISO containers returning to their port of origin empty, the SeaFold 40' has the potential to cut the cost of repositioning containers by 56 percent, storage space by 80 percent, and carbon emissions by up to 70 percent.

How many seafold containers are empty?

The SeaFold container opened out and stacked Credit: Compact Container Systems More than a fifth of containers are returned empty to their port of origin empty, according to estimates.
