

NKOSITHANDILEB SOLAR

500kWh Solar-Powered Container Used in East African Steel Plant

Overview

Can solar power a steel mill?

The world's first solar-powered steel mills Traditional steel production uses large amounts of fossil fuel energy to generate the temperatures needed, but the industry is working hard to find alternative ways of powering this process.

What is energy storage container?

SCU uses standard battery modules, PCS modules, BMS, EMS, and other systems to form standard containers to build large-scale grid-side energy storage projects.

What energy storage container solutions does SCU offer?

SCU provides 500kwh to 2mwh energy storage container solutions. Power up your business with reliable energy solutions. Say goodbye to high energy costs and hello to smarter solutions with us.
