50kW Photovoltaic Container Used at the Gaborone Drilling Site

Overview

What is the 80 MW Gaborone solar project?

The “80 MW Gaborone solar project” was a 5 year implementation project comprising the implementation of 7 solar PV projects and the construction of a local PV panel assembly factory. The services rendered for the “80 MW Gaborone solar project” here: .

Is Botswana a good country to invest in solar energy?

Botswana had the goal to achieve 25% renewables by 2030 and the need to increase installed generation capacity in the medium term and had also one of the best solar resources in the world and has currently generation units in its portfolio with running costs higher than the cost of solar energy, as is the case of the diesel Orapa unit.

How does LZY's photovoltaic power plant work?

LZY's photovoltaic power plant is designed to maximize ease of operation. It not only transports the PV equipment, but can also be deployed on site. It is based on a 10 - 40 foot shipping container. Efficient hydraulics help get the solar panels ready quickly.
