

NKOSITHANDILEB SOLAR

5MW Smart Photovoltaic Energy Storage Container in Canada

Overview

What is Canadian Solar doing with its energy storage product portfolio?

Canadian Solar continues to focus on its energy storage product portfolio. E-STORAGE, which is part of the company's majority-owned subsidiary CSI Solar Co., announced the launch of SolBank 3.0, the latest iteration of its utility-scale energy storage system. SolBank 3.0 provides power up to 2.35 MW and capacity of 5 MWh.

Where can I find more information about Canadian Solar?

For additional information about the Company, follow Canadian Solar on LinkedIn or visit [e-STORAGE](#) is a subsidiary of Canadian Solar and a leading company specializing in the design, manufacturing, and integration of battery energy storage systems for utility-scale applications.

How many MWh can a container hold?

Range of MWh: we offer 20, 30 and 40-foot container sizes to provide an energy capacity range of 1.0 – 2.9 MWh per container to meet all levels of energy storage demands. Optimized price performance for every usage scenario: customized design to offer both competitive up-front cost and lowest cost-of-ownership.

How many GWh of battery energy storage solutions has e-storage deployed?

To date, e-STORAGE has deployed more than 7 GWh of battery energy storage solutions across the United States, Canada, the United Kingdom, and China. Our team is the heart of our success, and we invite ambitious individuals to join us in shaping the future of energy storage solutions.
