60k inverter

Overview

What is a 60 kW solar inverter?

Designed to support a power of 60 kW, this equipment is ideal for large-scale photovoltaic installations, whether commercial or industrial. The main features of the inverter include 4 MPPTs that allow flexible adaptation to various solar panel layouts, thus maximizing solar energy capture regardless of installation conditions.

What is a Sol-Ark 60k-3p 480v-n?

The Sol-Ark 60K-3P-480V-N is a 60,000 watt (60kW) three-phase 480Vac output and 97.5% efficiency hybrid inverter that works grid-connected or off-grid for most commercial installations.

What is a high voltage inverter?

High voltage, three-phase energy storage for commercial applications. The inverter series, which boasts a maximum charge/discharge current of 70A+70A across two independently controlled battery ports, has three/four integrated MPPTs with a string current capacity of up to 20A – ensuring unmatched power delivery.

What is a commercial hybrid inverter?

Sol-Ark® 60K-3P-480V-N commercial hybrid inverter is engineered for large commercial businesses, supports both AC and DC coupling, and seamless backup power. [Learn more.](#)
