

Addis Ababa Solar Container 40kWh Procurement Contract

SMART GRID & HOME

Overview

Does Ethiopia have a solar power contract?

Since 2018, Ethiopia held two tenders to procure 1,000MW of electricity. The first tender for two solar photovoltaic (PV) projects led to a power purchase agreement (PPA) in 2019 with Saudi Arabian company ACWA Power and one of the cheapest tariff rates in sub-Saharan Africa, at US\$2.526 cents/kWh over 25 years.

Who can bid on Ethiopia tenders?

All companies and individuals who are capable of fulfilling the requirements can potentially bid on Ethiopia tenders. There might be additional restrictions based on domicile, experience, and qualifications depending on the project's nature and complexity. Ethiopia tenders procure various products and services.

Does Ethiopia have a legal framework to procure electricity from independent producers?

The legal and institutional framework to facilitate electricity procurement from independent producers has taken off from a solid foundation and resulted in several ongoing projects. Since 2018, Ethiopia held two tenders to procure 1,000MW of electricity.

Why does Ethiopia have a low electricity supply?

Despite abundant resources, Ethiopia's per capita electricity consumption of 100kWh per year is the third-largest electricity access deficit in sub-Saharan Africa. Use of electricity for socioeconomic development is low. Consequently, Ethiopia's energy supply is highly dependent on biomass resources, namely firewood and agricultural waste.
