# **Albanian solar container battery Manufacturing Company**

## Overview

---

Albania is in the process of building its first lithium-ion battery factory, BalkanEngineer.com has learned from Bnnbreaking.com. Vega Solar, Albania's leading renewable energy company, in partnership with an Indian investor, is spearheading the initiative that will mark a significant leap forward in the country's renewable energy sector. Is Vega Solar launching a lithium-ion battery manufacturing facility in Albania?

In the heart of the Balkans, an innovative partnership heralds a new era for Albania's renewable energy sector. Vega Solar, a pioneering Albanian energy firm, has recently unveiled plans for a groundbreaking collaboration with an undisclosed Indian investor, aimed at establishing the nation's inaugural lithium-ion battery manufacturing facility.

Will Albania build its first lithium ion battery plant?

Chief Executive Officer Bruno Papaj said the firm signed a memorandum of understanding with an Indian investor on the construction of Albania's first lithium ion battery plant. The facility is planned to come online within two years, with 100 MW in annual capacity.

What does Vega Solar's strategic alliance mean for Albania?

This strategic alliance, announced by Vega Solar's CEO, Bruno Papaj, marks a significant leap forward in Albania's quest for energy independence and sustainability.

Does Albania have a hydropower plant?

Hydropower makes up almost the entire domestic output in Albania, which helps balancing to a point, but it has no pumped storage hydropower plants. Furthermore, the country is exposed to drought and often turns to emergency imports.
