Asia Solar Light 100W

Overview

What is anern 100 watt solar street light?

Anern 100W solar street light is an energy-efficient and eco-friendly lighting solution designed for outdoor use. This 100 watt solar street light harnesses solar energy through high-efficiency photovoltaic panels, converting sunlight into electricity to power its high-lumen LED lights.

What are solar-powered street lights?

This series of solar-powered solar panel lights use a huge LED module, which increases the quantity of lamp beads for each LED module. Compared to conventional solar street lights, our enlarged solar-powered outdoor street lights can effectively increase the brightness by 10-20%. Mainstream integrated structure design, saving transportation costs.

What are an-SLZ solar street lights?

AN-SLZ series all-in-one solar street lights are Anern's latest patented integrated led solar street lights. This series of solar-powered solar panel lights use a huge LED module, which increases the quantity of lamp beads for each LED module.

What is a 100W street light?

Ideal for streets, parking lots, pathways, and public spaces, the 100W street light features a robust design with weather-resistant materials, ensuring durability and long-lasting performance. It typically includes a built-in battery for energy storage, allowing it to provide consistent illumination even during cloudy days or nighttime.
