Astana power storage prices

Overview

How much does Astana cost?

The estimated monthly costs for a family of four are 1,811.4\$ (977,192.5T), excluding rent (using our estimator). The estimated monthly costs for a single person are 489.1\$ (263,876.9T), excluding rent. Astana is 69.4% less expensive than Seattle (excluding rent, see our cost of living index).

What is the energy storage Grand Challenge?

The U.S. Department of Energy's (DOE) Energy Storage Grand Challenge is a comprehensive program that seeks to accelerate the development, commercialization, and utilization of next-generation energy storage technologies.

Will additional storage technologies be added?

Additional storage technologies will be added as representative cost and performance metrics are verified. The interactive figure below presents results on the total installed ESS cost ranges by technology, year, power capacity (MW), and duration (hr).
