BESS containerized generator in Antwerp Belgium

Overview

Where is ENGIE building a Bess project?

Engie has started construction on a 100MW/400MWh capacity market contract-winning BESS project in Kallo, Belgium, provided by NHOA Energy.

What is the new Bess project?

The new project will be almost identical as the one launched in March last year and should go live by end-2024. The new BESS will be installed on the site of TotalEnergies' depot in Feluy, Hainaut province, and will consist of 40 Intensium Max High Energy lithium-ion containers.

Does totalenergies have a power plant in Belgium?

TotalEnergies has a portfolio of 450,000 BtC and 100,000 BtB electricity sites in Belgium. TotalEnergies has initiated a battery energy storage project at its Antwerp refinery in Belgium. The installation boasts a power rating of 25 MW and a capacity of 75 MWh, sufficient to meet the daily consumption of nearly 10,000 households.

Where will a 100 mw Bess gas plant be installed?

An initial, 100 MW BESS was due to be installed by September last year in Vilvoorde, north of Brussels, with a second 100 MW phase due in January. That site is based at an Engie gas plant and the French utility is also developing an 80 MW/320 MWh BESS in Drogenbos, in Belgium's Flemish region.
