Battery cabinet outside the station cabinet

Overview

What is a battery cabinet?

Battery cabinets are a convenient storage solution that encourages staff to maintain the correct handling and storage procedures. By charging and storing batteries in the one location, you are reducing the likelihood of batteries being lost, stolen, damaged or left in unsafe conditions (such as outdoors).

What is outdoor cabinet?

Outdoor Cabinet incorporates tailored air conditioners that will keep even the most sensitive electronics functioning in extreme environments. Protection Level: IP55 ,Waterproof,dust proof. Sandwich panel construction Design: Cabinet design avoid the cold air and heat air exchange to providing a better cooling performance for the equipment.

Why is air conditioner installed on cabinet?

Air conditioner (options: Heat exchanger/TEC/Fan) is installed on cabinet for keeping a stable temperature inside cabinet so as to increase service life and stability of battery and equipment. It provide a secure thermally managed environment for backup battery systems for telecommunications and cable applications.
