Battery rack battery cabinet

Overview

What is a battery cabinet / rack?

EverExceed designs customized battery cabinets / racks for individual batteries. The cabinet or racking system can be specified to accommodate any battery cell. From flooded to sealed, from lead acid to nickel cadmium and from vertical to horizontal all kinds of battery cabinet / rack can be designed flexibly to save the space in battery room.

What is a battery cabinet?

Battery cabinets are a convenient storage solution that encourages staff to maintain the correct handling and storage procedures. By charging and storing batteries in the one location, you are reducing the likelihood of batteries being lost, stolen, damaged or left in unsafe conditions (such as outdoors).

What is a battery storage rack?

Each battery storage rack unit is designed to allow maximum amount of space, with high product visibility. The result is a higher profit per square foot of retail space. An automotive battery storage rack increases storage density and handling efficiency in the storage of batteries.

What are external battery racks & cabinet design encasing solutions?

Our External Battery Racks and Cabinet design encasing solutions are a premium brand that offer industry-standard features in custom design measurements at competitive pricing. They can accommodate various combinations of Batteries, up to maximum number of strings for complete battery ranges.
