Bess battery storage for sale in Lithuania

Standard 20ft containers

Standard 40ft containers

Overview

Why are battery energy storage systems important in Lithuania?

“Power generation from renewables is growing in Lithuania, which makes battery energy storage systems an important guarantee of [grid] reliability,” said Ignitis Group CEO Darius Maikštėnas.

Will Ignitis install a battery energy storage system in Vilnius?

Vilnius-based utility Ignitis Group will install 291 MW/582 MWh of total battery energy storage system (BESS) capacity at two of its wind farms and at a hydro site, with commercial operation expected in 2027.

Who is supplying BESS power in Lithuania?

Lithuanian utility Ignitis Group has announced plans to develop 291 MW/582 MWh of BESS capacity at three of its clean energy sites and said the equipment will be supplied by Germany-based Rolls Royce Solutions GmbH.

What is Lithuania's first commercial battery storage site?

This facility, which is set to become Lithuania's first commercial battery storage site, will significantly increase the country's storage capacity by around 50%. The project, located near the capital city of Vilnius, is expected to be operational by the end of 2025.
