# Board Outdoor Power

## Overview

---

What is the Lt outdoor distribution board (DB) panel?

The LT Outdoor Distribution Board (DB) Panel is designed for efficient and secure electrical distribution in outdoor environments. It features a weatherproof, corrosion-resistant enclosure, robust bus bars, secure wiring terminals, and protective devices like MCCBs and MCBs.

What can I put in a 4 way power board?

The cavity inside is large enough for most 4-way power boards and will house plug packs for Christmas lights and garden ornaments with ease. A 5-way cable grommet is built-in (1 for powerboard, 4 for the items connected to the power board). Mount it on the wall or tuck it out of the way – easy!.

How many cable glands do I need for a Powerboard?

A 5-way cable grommet is built-in (1 for powerboard, 4 for the items connected to the power board). Mount it on the wall or tuck it out of the way – easy! The enclosure comes with optional drill holes for M20 or M25 Cable glands to ramp up the number of devices connected to a powerboard.  
Features: IP54 Weatherproof Rating Wall Mountable Lockable
