# **Boston Grid Cabin Energy Storage Power Station**

## Overview

---

What is Flatiron Energy's 300 MW battery storage project?

Flatiron Energy's groundbreaking 300-MW battery storage project in Boston aims to enhance reliability and champion environmental justice by 2028. Powering a greener future starts here! Flatiron Energy has received approval from ISO New England for a 300-MW/1,200-MWh battery energy storage system in Boston, Massachusetts.

What is lightshift energy & MMWEC doing in Massachusetts?

Lightshift Energy and MMWEC deploy "first-of-its-kind" program for grid-scale battery energy storage in Massachusetts. (Pictured: Lightshift Energy project in Danville, VA) (Photo: Business Wire).

Are battery-based energy storage systems the future?

Battery-based energy storage systems (ESSs) will likely continue to be widely deployed, and advances in battery technologies are expected to enable increased capacity, efficiency, and cost-effectiveness.

Are Massachusetts utilities demonstrating leadership in Grid Modernization?

"This is a significant milestone for Massachusetts and for the participating utilities which are demonstrating leadership in grid modernization while prioritizing cost reduction for their communities," said Rory Jones, Lightshift Co-Founder and Managing Partner.
