British custom solar container lithium battery pack

Overview

Who are Abt batteries?

ABT is a leading UK battery pack manufacturer offering world-class, high-volume manufacturing of custom lithium battery packs, backed by bespoke battery design, testing and validation services. Excellence is built into every battery pack.

What is a custom built battery pack?

Custom built battery packs for use in high temperature, high shock and high vibration applications. Major supplier of high quality lithium rechargeable cells for us in autonomous vehicles & robotics applications. Using our range of rechargeable and non-rechargeable chemistries, our experts can configure the best battery pack for your application.

How many unique battery pack designs are there?

In that time, we have developed over 3,000 unique battery pack designs that have endured some of the world's harshest conditions. Our UK purpose built factory allows us to design, test, and manufacture under one roof meaning we can deliver on your project every time.

What is a battery pack?

Battery packs designed and manufactured using high-quality lithium-ion and lithium ferrous phosphate battery cells for the aviation and UAV industry. We design and manufacture battery packs for safety products including emergency lighting, hearing protection equipment and powered air personal respirators (PAPR).
