# Buster Folding Container High Efficiency

## Overview

---

Could a five-in-one foldable container design boost efficiency?

A five-in-one foldable container design certified by the International Geneva-based International Standard Organization (ISO) could boost efficiency and transform the carriages of empties, claims Florida-based Compact Container Systems (CCS). The SeaFold container opened out and stacked Credit: Compact Container Systems.

Could a seafold 40' container slash the cost of repositioning empty containers?

More than a fifth of containers are returned empty to their port of origin empty, according to estimates. CCS claims that the SeaFold 40' box could potentially slash the cost of repositioning empty containers by 56%, save storage space by 80%, and drive down carbon emissions by 70%.

What is an upright folding container?

An upright folding container is a type of container with hinged long sides in the middle and hinged short sides at the base. In its folded and upright state, the upper frame remains rigid, providing the necessary stability. This type of container is commonly used in the retail sector.

How many seafold containers are empty?

The SeaFold container opened out and stacked Credit: Compact Container Systems More than a fifth of containers are returned empty to their port of origin empty, according to estimates.
