Who makes solar inverters?

Senergy is a professional solar inverter manufacturer with 20 years of experience in developing and manufacturing a range of solar inverters, including 1-10kW single-phase and 6-100kW three-phase on-grid solar inverters. They also offer energy storage inverters, highlighting their expertise in both residential and commercial solar solutions.

Where can I buy a solar inverter?

sun.store is a professional B2B marketplace built for contractors who need to move quickly from design to delivery. Here you can compare solar inverters side-by-side, check transparent stock across multiple suppliers, and buy solar inverter models that match your bill of materials without chasing quotes across inboxes.

What is a solar inverter?

Inverters convert direct current (DC) electricity produced by solar panels into a sinusoidal alternating current (AC) of 220V, which is suitable for most electrical appliances. The assortment of inverters for solar systems on the market today is huge.

Which solar inverter is best?

CNET experts have compared the most popular solar inverters' specs, warranties, prices and more. The SolarEdge Home Wave Inverter is our top pick in 2025. It was the most efficient inverter we looked at, letting you use a larger percentage of the energy your solar panels generate. This translates to less and more power to use around the house.
