

NKOSITHANDILEB SOLAR

Canadian electric forklift solar container lithium battery pack

Overview

Where can I buy a lithium ion forklift in Canada?

Hangcha Canada's lithium-ion forklifts are competitively priced and readily available across Canada with strategically located warehouses in Mississauga, Ontario; Vancouver, British Columbia; and Vaudreuil-Dorion, Quebec.

Can bslbatt® lithium batteries be used for a forklift?

Many of our customers are converting their forklifts from old lead-acid batteries to lithium batteries. BSLBATT® lithium batteries are an easy solution, but it is important to understand how to correctly select the specifications of the replacement lithium battery.

Who makes lithium-ion battery packs?

The esteemed Hangcha Group, one of the top eight material handling equipment manufacturers in the world, partnered with CATL, the global leader in lithium-ion battery pack manufacturing, to build advanced, fully recyclable battery packs for material handling applications.

What kind of battery does a forklift use?

Partnering with CATL, REPT, EVE and other top battery manufacturers, we focus only on premium lithium iron phosphate battery technology. A wide range of forklift lithium batteries with system voltages from 12V to 614V, which can improve operating efficiency and uptime, and reduce labor costs.
