Are Cape inverters compliant?

A certificate of compliance is issued upon installation. All products have warranties. Contact our team for any sales or technical enquiries. Secure Payment options available. Cape Inverters are known as trusted experts in installing reliable, compliant inverters and solar backup systems to keep the power on during load shedding.

What is an inverter & how does it work?

An inverter is a device that converts direct current (DC) to alternating current (AC), enabling the use of electrical appliances when main power is unavailable, such as in solar power systems or mobile applications. It essentially transmutes stored power from batteries into usable energy.

What are inverters & uninterruptible power supplies (UPS)?

Inverters and Uninterruptible Power Supplies (UPS) are key elements in power system infrastructure. An inverter is a device that converts direct current (DC) to alternating current (AC), enabling the use of electrical appliances when main power is unavailable, such as in solar power systems or mobile applications.
