Cheap switchgear equipment for sale for sale

Solar

Overview

What is a switchgear?

A switchgear is a collection of switching devices needed to service low, medium, or high-voltage electrical circuits. These devices are needed to switch power on and off for transformers, generators, motors, transmission lines, and power networks in domestic, commercial, and industrial distribution systems.

What are the different types of switchgear?

Switchgear can be divided into two main categories: outdoor and indoor. Outdoor switchgear is typically used in high-voltage power systems, while indoor switchgear is typically used in lower-voltage systems.

What services does switchgear offer?

Offering a full service covering design, manufacture, installation, testing and the Service and Maintenance of your Switchgear we work with you every step of the way. This enables you to have one supplier who can support you through the whole process of your project and form genuine long term relationships.

What is a switchgear & panelboard?

Celebrating 100 Years! Have One to Sell?

Switchgears and panelboards are essential pieces of electrical equipment used to provide a common node of power distribution and to protect electrical systems from overcurrent. While panelboards are often placed in a cabinet or mounted onto walls, switchgears are freestanding with draw-out breakers.
