China tandem circuit breaker in Australia

Overview

What are tandem breakers?

Tandem breakers are circuit breakers that allow for two circuits to be installed under one space in an electric panel. They're often referred to as 'cheaters' when an electric panel is filled with standard circuit breakers and more circuits need to be added.

Are tandem circuit breakers legal?

Yes, tandem circuit breakers are legal and safe to use, provided they are installed according to manufacturer guidelines and in panels designed to accommodate them. Are tandem breakers a good idea?

Tandem breakers can be a good idea when you need to increase the capacity of your electrical panel without extensive upgrades.

What breaker brands are used in Australia?

1912. Westinghouse Corporation The residential circuit breaker brands supplied to Australia include Clipsal, Voltex, and Chint. Clipsal, an Australian brand that dates back to 1920, is the leader in electrical accessories and has been acquired by Schneider Electric in 2003.

Who makes Siemens circuit breakers?

Siemens is a German firm established in 1847 and is considered to be the world's leading producer in electrical engineering and automation. This firm established through its state-of-the-art innovations major role in power distribution technology. Their circuit breakers are rugged, advanced, and meet the requirements of Australian standards.
