## Overview

---

Who makes aluminum-plastic film for lithium batteries?

Shanghai Zijiang New Material Technology Co., Ltd. mainly develops, produces and sells aluminum-plastic film for lithium batteries, and its products are widely used in digital, power, and energy storage fields. Through independent R&D, the company has fully replaced imported materials and is a leading manufacturer of aluminum-plastic film in China.

Why is China a leader in battery liquid cooling products & services?

If you're curious about battery liquid cooling products or services, feel free to ask me any questions! China excels in battery pack enclosure tech due to strong government support, a vast market, and major investments in innovation and sustainability.

Who makes aluminum battery casings?

They have honed their focus on the automotive industry, particularly on its electrification, ascending to become the supplier of aluminum battery casings and exterior parts. Their global footprint is underscored by strategic partnerships and joint ventures, notably with the Renault Group for manufacturing battery casings in France.

Who makes aluminum-plastic film in China?

Through independent R&D, the company has fully replaced imported materials and is a leading manufacturer of aluminum-plastic film in China. More
