# **Commercial energy storage products in the Democratic Republic of Congo**

## Overview

---

What is the main energy resource of the Democratic Republic of Congo?

Hydroelectric power (See Annex 1) is the main energy resource of the Democratic Republic of Congo. The DRC ranks first in Africa in terms of its potential (100,000 MW), which accounts for 13% of the global hydropower potential.

What products does Congo energy offer?

Congo Energy supplies a wide range of products tailored to the specific requirements of its customers' sectors of activity. From industrial lighting to street lamps, automation systems and energy management, Congo Energy offers reliable, superior quality products, carefully selected from its partners.

Is the Democratic Republic of the Congo an energy exporter?

One of the Inga dams, a major source of hydroelectricity in the Democratic Republic of the Congo. The Democratic Republic of the Congo was a net energy exporter in 2008. Most energy was consumed domestically in 2008. According to the IEA statistics the energy export was in 2008 small and less than from the Republic of Congo.
