

# Control switchgear in China in Norway

## Overview

---

What is LV switchgear?

LV (Low voltage) switchgear is an engineered solution used to control, protect, and isolate electrical equipment or systems to allow work to be done and clear faults quickly and safely when required.

Why is China's switchgear industry important?

The Chinese government is increasingly prioritizing green technologies, pushing companies to adopt sustainable practices. Furthermore, the global market relevance of China's switchgear industry is significant, as it is one of the largest producers and consumers of electrical equipment.

Who makes Andeli switchgear?

Andeli Group Co., Ltd. is a prominent manufacturer specializing in both low- and high-voltage electrical devices, including a diverse range of switchgear. The company's commitment to innovation and quality is reflected in its extensive product lineup and numerous international certifications.

What is low voltage switchgear?

Low voltage switchgear is rated up to 1KV and consists of low voltage switches, earth leakage circuit breakers, HRC fuses, electrical isolators, Air circuit breakers (ACB), Molded case circuit breakers (MCCB) and miniature circuit breakers (MCB).
