Copenhagen Energy Storage Container 600kW

Overview

What is Danish Center for energy storage?

Danish Center for Energy Storage, DaCES, is a partnership that covers the entire value chain from research and innovation to industry and export in the field of energy storage and conversion. The ambition of DaCES is to strengthen cooperation, sharing of knowledge and establishment of new partnerships between companies and universities.

What will Copenhagen energy do in 2024?

Copenhagen Energy has been developing the projects since the start of 2024. It will now proceed work with the procurement of long-lead components such as batteries, inverters, and transformers, after which it will choose engineering, procurement and construction (EPC) contractors and key suppliers.

Does Copenhagen Energy offer ancillary services & energy arbitrage?

Commenting on the Danish energy storage market, Copenhagen Energy said that it offers a solid mix of revenue opportunities through both ancillary services and energy arbitrage.

When will Copenhagen Energy be commissioned?

With construction works scheduled to begin late this year, the facilities are expected to be commissioned in the first half of 2026. Copenhagen Energy has been developing the projects since the start of 2024.
