# Cost of 40-foot photovoltaic shipping containers for Southeast Asian farms

## Overview

---

How much does shipping container transport cost?

Shipping container transport costs range from \$1,500 to \$15,000 based on size, route, and market conditions. Fuel costs, route distance, container type, and demand affect prices the most. Asia to North America routes cost \$3,000-\$6,000 for a 20ft container. Book in February–March or September–October to save 10–25% of transport cost.

How much does it cost to ship a container overseas?

The total cost to ship a container overseas depends on several factors: For smaller shipments, partial container shipping (LCL) is a cheaper alternative. Here's a breakdown of the average overseas shipping costs for both 20ft and 40ft containers by region: Shipping a 20 ft container can range from \$2,800 to \$15,600 depending on destination.

How much does a 40ft container cost?

A 40ft standard container from China to the US West Coast costs \$3,500-\$6,000. Shipping to the East Coast ranges from \$4,500-\$7,500. These rates include base ocean freight and surcharges but not destination charges, customs clearance, or inland transportation. High-demand periods can push rates 30%-50% higher.

How much does shipping a 20ft container cost?

Shipping a 20ft container ranges from \$2,800 to \$15,600, and a 40ft container from \$1,865 to \$23,415, depending on the route. Partial container shipping (LCL) is a cost-effective option for smaller moves, averaging around \$1,600. Main cost factors include distance, volume, delivery method, and optional services like insurance, customs, or packing.
