Customized Off-Grid Folding Containers in Australia

Overview

What is a containerised Offgrid system?

Power where the grid can't go — delivered in a single, rugged container. MyEnergy designs and builds turnkey off-grid systems inside 10-, 20- or 40-foot containers, pre-wired, factory-tested and ready to run the moment they land on site. What is a containerised off-grid system?

.

What is a fold-out container home?

An Fold-out container home is a fully self-contained fold-out container home that can be delivered flat-packed and expanded on-site. It's ideal for off-grid living, holiday stays, temporary housing, or even a permanent rural retreat. These modular homes come pre-fitted with essentials like plumbing, electricity, and insulation.

What does a modbox solar container include?

A typical ModBox solar container includes battery storage, inverter setup, internal racking, cabling, ventilation, and secure access. We can also include external solar panel mounting or integrate with your existing array. Can I use a solar container to power other ModBox units?

Absolutely.
