

Dakar Sineng solar Inverter

SMART GRID & HOME

Overview

What is a Sineng solar inverter?

Sineng. The Sineng 3-Phase SN-10K On-Grid Inverter is a compact and efficient solar inverter designed for small to medium-scale commercial and residential solar installations. With a maximum output power of 10 kW, it can efficiently convert DC power from solar panels into AC power for use in the electrical grid. Its.

Who is Sineng electric?

Sineng Electric Co., Ltd. is the global leading supplier of a comprehensive product portfolio including PV inverters and energy storage systems for utility-scale, commercial & industrial, and residential applications, as well as power quality products.

What types of energy storage products does Sineng offer?

Leveraging technological innovation and extensive expertise, Sineng delivers a wide range of energy storage products, including hybrid inverter, battery and power conversion system. With an array of products, Sineng's offerings can adapt to residential behind-the-meter, commercial behind-the-meter and front-of-the-meter applications.

What is the production capacity of Sineng PV inverter?

After the three global manufacturing bases being put into operation, the annual production capacity can now reach 40GW. Known for the engineering excellence, rigorous testing standards, and consistent quality, Sineng is a market leader in the industry and ranks Top 8 in the global PV inverter market share.
