Decision of China Southern Power Grid Energy Storage Company

Overview

Does China's new energy storage system guarantee supply security?

The trial effectively validated the system's capacity to guarantee supply security. By the end of July, within the service area of China's State Grid, the maximum dispatchable power from new-type energy storage reached 64.23 GW, with a real-time maximum discharge of 44.53 GW, up 55.7 percent from last year.

Who signed CSG energy storage agreement?

Witnessed by Liu Guogang, Chairman and Party Secretary of China Southern Power Grid Energy Storage Co., Ltd. ("CSG Energy Storage"), and William Li, Founder, Chairman and CEO of NIO, Wang Zhiqiang, Chairman of CSG Energy Storage Technology, and Shen Fei, Senior Vice President of NIO, signed the agreement.

Where are solar energy storage units located in China?

On a mountain pass in Jiawa village, Qusum county, Shannan, southwest China's Xizang autonomous region, rows of energy storage units hum quietly beside a solar-storage power station. "These facilities are designed to work with photovoltaic power generation.

Why is energy storage important in China?

[Photo/Ren Yigang] As China accelerates the shift toward renewable energy and builds a new type of power system, energy storage has become indispensable.
