Desert solar panel finished product manufacturers

Overview

Where is desert technologies establishing a new solar panel factory?

Source and photo: Desert Technologies / Linkedin Desert Technologies has announced a \$200 million investment to establish a new solar panel factory in Jeddah's Third Industrial Zone, Saudi Arabia.

Why is desert technologies investing in a solar plant in Jeddah?

The company is investing in a solar plant in Jeddah to produce 5 GW of solar panels and cells, supporting renewable energy in the country. Solar energy expert Desert Technologies has announced an investment of 750 million Saudi riyals (\$200 million) to establish a new solar panel manufacturing plant in Jeddah's Third Industrial Zone, Saudi Arabia.

How many solar panels will desert technologies produce?

The factory will have a production line for 2 GW of solar panels and another for 3 GW of photovoltaic cells, thus covering the entire production process to meet the demand for solar solutions from Desert Technologies and third parties.

What is desert Technologies doing in Saudi Arabia?

These include building production facilities for solar panels and wind turbines, as well as battery energy storage systems (BESS). Desert Technologies is planning to invest SAR 750 million (USD 200m/EUR 183.4m) to build a 5-GW solar panel and cell factory in Jeddah's third industrial zone on the west coast of Saudi Arabia.
