# **Distribution breaker in China in Austria**

## Overview

---

What is an indoor vacuum circuit breaker?

This indoor vacuum circuit breaker is specially developed for the thermal power unit with the capacity over 300,000 kilowatts. It can be used in places with the altitude as high as 2,000 meters. As a professional electrical equipment manufacturer in China, BBE is engaged in the manufacturing and marketing of switchgear and circuit breaker.

Who is ABB Xiamen switchgear?

In 1994, ABB Xiamen Switchgear Co., Ltd. was awarded ISO9001 Quality Management Certification, and in 1996, company was awarded ISO14001 Environmental Management Certification. The company won also several important awards, such as “Clean Production Enterprise” and “China National Double-Excellence Foreign-Invested Company”.

What are circuit breakers used for?

Our circuit breakers are equipped with the world’s most advanced automatic production line, featuring an annual capacity of 60,000 units. Products are used in a variety of industries, including nuclear power plants, power plants, substations, urban and rural power grids, petrochemical, metallurgy, railways, and ports.

What are the different types of circuit breakers?

In terms of voltage level, it can be divided into HV circuit breakers, MV circuit breakers and LV circuit breakers. Based on its arc extinguishing materials, it has oil-immersed type, vacuum type and filling-in SF<sub>6</sub> air. Divided by structure: There are universal (frame type), plastic shell type, and small micro break;
