Energy company uses 1MWh solar container in Peru

Overview

What will Inkia do with 'Peru's solar hub'?

With these three projects, Inkia will consolidate the energy of 'Peru's Solar Hub', contributing approximately 1 GWp of renewable capacity to the National Interconnected Grid starting in the fourth quarter of 2025. In addition, the company expects to launch two wind projects, with an aggregate capacity of at least 600 MW, in 2026.

Does Inkia Energy have a solar power plant in Peru?

LIMA, Peru-- (BUSINESS WIRE)--Inkia Energy, through its wholly-owned subsidiary Kallpa, received environmental approval for the expansion of its solar power plant currently under construction in Southern Peru, a leading global solar resource hub.

What percentage of solar PV installations are in Peru?

Solar PV capacity accounted for 16.4% of total power plant installations globally in 2023, according to GlobalData, with total recorded solar PV capacity of 1,496GW. This is expected to contribute 33.7% by the end of 2030 with capacity of installations aggregating up to 4,822GW. Of the total global solar PV capacity, 0.03% is in Peru.

Will Peru's solar hub become a'renewable power hub'?

The expansion is a part of the company's plan to establish Peru's solar hub, which is expected to contribute approximately 1 gigawatt peak of renewable capacity to the country's national interconnected grid by the fourth quarter of 2025.
