

**NKOSITHANDILEB SOLAR**

# **Energy storage equipment manufacturer in the Philippines**

## Overview

---

Where is the first battery-based energy storage facility in the Philippines?

The plant, which will be the first battery-based energy storage facility in the Philippines, will be located next to the Masinloc power plant in Zambales. The energy storage array will enhance grid reliability by providing fast response ancillary services like frequency regulation.

What is Masinloc battery energy storage?

The Masinloc Battery Energy Storage System (BESS) is the first battery energy storage facility in the Philippines and one of the first in Southeast Asia. We started our venture into battery energy storage technology in 2018 when we acquired this 10 MW system from AES Philippines.

Does the Philippines have solar power?

Powering Solar Energy in the Philippines In Southeast Asia, the Philippines has notable achievements in terms of renewable energy with an exceptional record for solar power. The nation has rapidly expanded its solar panel and battery storage production as the economy develops quickly with increasing energy requirements.

How ACEN is revolutionizing energy solutions in the Philippines?

ACEN is revolutionizing energy solutions in the Philippines with cutting-edge battery storage projects. These initiatives are tailored to enhance grid reliability, allowing for smoother integration of renewable sources and providing critical backup during peak demands.
