Energy storage projects under construction in Niue

Overview

When will the Niue energy project be completed?

The project will be completed mid-2026 when the Government of Niue under the Department of Utilities and Niue Power Corporation (NPC) will take over the ownership. We anticipate savings of 816,000 litres of fuel and 2,202 tCO₂e in year one. It will support Niue to deliver on our climate goals and Nationally Determined Contributions (NDCs).

How did New Zealand support Niue's battery energy storage system?

In addition to Australia's support, the New Zealand Government contributed \$2.5 million to relocate and restore Niue's Battery Energy Storage System (BESS). This funding has allowed the Ministry to repair the grid control system, procure necessary fuel tanks, and install cabling and connections.

What is MFAT doing in Niue?

MFAT is in the 'awaiting approval' stage of a Solar PV, Battery Energy Storage System (BESS) and electrical grid upgrade project in Niue. The current scope of the project includes the design, procurement, installation, and commissioning of: Furthermore, it is expected the EPC contractor will include provision for a 2 year O&M contract.

What does the Minister of infrastructure say about Niue's New Power Station?

The Minister of Infrastructure, Hon. Crossley Tatui extended his appreciation to the Australian and New Zealand Governments, saying, "The construction of this new power station is a vital piece of infrastructure for Niue's development and well-being. This achievement would not have been possible without the support of our regional partners."

Energy storage projects in Guyana and Guyana, a country on South America's north coast, has issued an invitation for bids for energy storage projects with a combined capacity of 34MWh. [pdf]

The Ministry of Infrastructure celebrated the soft launch of Niue's New Power Station on

the 7th November 2024. The launch marks ...

The project will contribute to the Government of Niue's target of 80% renewable energy. The Niue Renewable Energy project currently being ...

The project will contribute to the Government of Niue's target of 80% renewable energy. The Niue Renewable Energy project currently being constructed near the airport comprises a 2.79MWp ...

Energy storage projects under construction in Niue As the photovoltaic (PV) industry continues to evolve, advancements in energy storage projects in niue have become critical to optimizing ...

Comoros Photovoltaic Power Generation and Energy Storage Project The Comoros Solar Energy Access Project is set to revolutionize the energy infrastructure of the Comoros by integrating ...

MFAT is in the 'awaiting approval' stage of a Solar PV, Battery Energy Storage System (BESS) and electrical grid upgrade project in Niue. The current scope of the project includes the ...

The Ministry of Infrastructure celebrated the so5 launch of Niue's New Power Station on the 7th November 2024. The launch marks a critical milestone in Niue's journey to ...

Imagine a tropical paradise meeting cutting-edge technology - that's exactly what's happening in Niue's photovoltaic power storage project. As island nations face rising fuel costs ...

Terminal Evaluation of Accelerating Renewable Energy and Energy Efficiency Applications in Niue (AREAN) Project Completed on 30 Oct, 2025 Evaluation Plan 2023-2027, ...

RFx ID : 28702615 Tender Name : Solar PV, Battery Energy Storage System (BESS) and electrical grid upgrade project in Niue Reference # : ACT-0102911 Open Date : Q1 2024

...

How did New Zealand support Niue's battery energy storage system? In addition to Australia's support, the New Zealand Government contributed \$2.5 million to relocate and restore Niue's ...
