Factory price 5 5 kw inverter in America

Overview

How much does a 5kw solar inverter cost?

For example, decent-quality 5kW solar inverters, which can support up to 6.6kW of panels, start at \$1,000 for budget single-phase models (e.g., Sungrow, Goodwe, or Solis) and up to \$2,000 for premium single-phase models (e.g., Fronius or SMA). If you want a 3-phase, 5kW inverter; add around \$400 to those prices.

Is a 5 kW inverter worth it?

It could be that the system will spend such little time providing above 5 kW, once shading and losses are taken into account, that it's not worth the cost of getting the next-largest inverter.

How much does a 500KW inverter cost?

The cost of a 500kw inverter ranges from 10 to 99999. The price of a 500kw inverter varies by different parameters. Haven't found what you want?

Post sourcing requests and get quotations quickly. Stay updated to what's new and popular on the market.

What is the 5.5kW Hybrid Inverter?

The 5.5kW Hybrid Inverter is a mid-range on-grid parity inverter that is our best-selling model with 2 MPPT ports. It is perfect for most applications, especially for domestic premises with sufficient roof space for solar or wind power.
