Growth trend of portable energy storage products

Overview

How much is the portable energy storage system industry worth?

The portable energy storage system industry was valued at USD 2.8 billion, USD 3.5 billion and USD 4.4 billion in 2022, 2023 and 2024 respectively. The industry is segmented in lithium-ion, lead-acid and others based on technology.

What is the future of portable storage?

According to the IEA, renewables are expected to hold for almost half of global electricity generation by 2030, with wind and solar PV's share projected to double to 30%, driving up the demand for portable storage systems to harmonize supply and need. Growing outdoor recreation industry drives the demand for off-grid power solutions.

Who makes the best portable energy storage system?

Top three players, including Chint Global Bluetti Power, and Jackery Technology GmbH account for nearly 43.5% of the portable energy storage system industry. BLUETTI's most portable model is the AC2A weighing only 3.6 kg with a charge capacity of 204Wh, 300W AC, and 600W surge output, making it ideal for hiking and camping.

Which portable energy storage systems are available in Australia?

Eminent players operating in the portable energy storage system market are: In November 2024, in Australia, BLUETTI plans to introduce the AC70, AC2A, and AC200L portable power stations. With a 204Wh capacity, 300W AC output, and 600W surge, the AC2A is ideal for hikers and campers, weighing only 3.6kg.

Global portable energy storage modules market was valued at USD 5.3 billion in 2024 and is projected to reach USD 18.9 billion by 2031, expanding at a CAGR of 19.7% ...

The global portable energy storage system market size surpassed USD 6.2 billion in 2025 and is projected to witness a CAGR of over 24% between 2026 and 2035, attributed to ...

The portable energy storage box market is experiencing robust growth, driven by

increasing demand for backup power solutions during power outages and the rising popularity ...

Portable Energy Storage Device Market Report: Trends, Forecast and Competitive Analysis to 2031 - The future of the global portable energy storage device market looks ...

The global portable energy storage device market size was valued at approximately USD 11.5 billion in 2023 and is projected to reach around USD 25.6 billion by 2032, growing at a ...

The portable energy storage market is characterized by dynamic trends and factors shaping its growth trajectory: Technological innovation: Advances in battery chemistry, energy ...

The global portable energy storage system market size surpassed USD 6.2 billion in 2025 and is projected to witness a CAGR of ...

Portable Energy Storage System Market Size The global portable energy storage system market was valued at USD 4.4 billion in 2024 and is expectations to reach USD 40.9 billion by 2034, ...

The portable energy storage industry has entered a new stage of accelerated growth. The latest QYResearch report, Portable Energy Storage- Global Market Share and ...

Portable Energy Storage System Market is projected to reach USD 184.19 Billion, at a 23.07% CAGR by driving industry size, share, top company analysis, segments research, trends and ...

The global portable energy storage device market size was valued at approximately USD 11.5 billion in 2023 and is projected to reach ...

The portable energy storage market is experiencing robust growth due to increasing demand for reliable off-grid power solutions. With growing outdoor recreational activities like camping and ...
