## Overview

---

Where do I get my Guyana import/export data?

Data is obtained exclusively from the Guyana Revenue Authority Customs Department and other import/export agencies.

How much did Guyana export in 2023?

A country located on South America's north-central coast between Venezuela and Suriname, the Co-operative Republic of Guyana shipped US\$10.8 billion worth of exported products around the globe in 2023. That dollar amount reflects a 181.4% increase compared to \$3.84 billion 5 years earlier in 2019.

Does Guyana have a strong competitive advantage?

Guyana generated highly positive net exports in the international trade of crude oil. In turn, these cashflows indicate Guyana's strong competitive advantage under the mineral fuels-related category. Below are exports from Guyana that result in negative net exports or product trade balance deficits.

How much does Guyana import from China?

Guyana imports from China worth US\$ 279 million, with a partner share of 6.71 percent. Guyana imports from Japan worth US\$ 107 million, with a partner share of 2.58 percent. Exports and imports of products by stages of processing in 2021 are below along with their corresponding Product Share as percent of total export or import.
