kva inverter for sale**

Overview

What is a 2 kVA hybrid inverter?

A 2 kVA hybrid inverter, as offered by Gennex Technologies, is compatible with mains voltage, solar, and generator. It is built in an anti-dust kit for harsh environments and features a battery equalization function to optimize battery performance and extend life-cycle.

What is a hybrid solar inverter?

The hybrid solar inverter is a multifunctional device that combines solar energy systems, AC power and battery power to continuously power electrical equipment.

Are hybrid solar inverters suitable for off-grid system?

As one of the leading hybrid solar inverter suppliers in China, Anern has independently developed a variety of hybrid solar inverters with different performances, which is suitable for off-grid system and on-grid system.

What are hybrid inverters used for?

Anern hybrid inverters can be used with grid-connected solar power generation systems on home roofs. Farms also need a lot of energy to support them. Hybrid inverters are converted to alternating current to keep agricultural activities in order. Focus on providing customers with one-to-one services, and one-stop solar system solutions.
