How many EMS stations are there in Spain

Overview

How many EMS are there in Spain?

There are 17 autonomous communities (autonomous regions) in Spain (like states in USA). Each region has their own Public Health Service (with hospitals, health centers and regional EMS). So there are 17 regional public EMS (they depend of the Regional Government).

How many EMS are there in a region?

Each region has their own Public Health Service (with hospitals, health centers and regional EMS). So there are 17 regional public EMS (they depend of the Regional Government). Furthermore, some cities has a local EMS (it depends of the city council), and some Fire Department has ambulance service too.

What are the requirements for EMS in Madrid?

In Madrid, the Lain Entralgo Agency verifies this (Register of EMS staff: EMTb, nurses, doctors, lifeguards): In many communities you don't need special requirements. In others you will have to consult the requirements with the local EMS office. - In most communities, the service is run by Public Health Department.

Is there a public EMS?

In all regions there is a public EMS with professional staff (not volunteers). However in some regions non-profit organizations as Red Cross provides emergency ambulances permanently as support for the public EMS. These ambulances are usually BLS units, because Red Cross usually hasn't ALS personnel (nurses and physicians) permanently.
