

# How much does a containerized generator cost

## Overview

---

What is a containerized diesel generator set?

This containerized diesel generator set is developed by Ausonia S.r.l. This generator set is custom made specifically for power plants in LV and mV. DIESEL GENERATORS T2 T2 series diesel generators adopt PowerLink engine to meet the needs of energy service production. Their power ranges from 8KW to 3500KW.

What are the different types of container generators?

We can supply the 20' container, 40' container, and widen or heighten container type. They are divided into the normal type and silent type. This series generator set can be easily moved to the desired location, can run under the most demanding working conditions.

How much does a Commercial Generator cost?

Commercial natural gas generators can cost around \$1,000 per kW for purchasing, installing, and one year of maintenance. Therefore, a 65 kW generator would cost approximately \$65,000 with installation. These generators are more complex than residential models due to their size and often require retrofitting in older buildings.

How much does it cost to ship a generator?

The cost to ship a generator can vary quite a bit, from a few hundred dollars for a small, residential standby generator, to thousands of dollars for a large industrial generator. Shipping costs are typically charged at a per-mile rate.
