**51.2V 300AH**

## Overview

---

How much does a solar system cost in Sydney?

In 2025, the average cost of a fully installed solar panel system in Sydney ranges between \$4,500 to \$9,000, depending on system size, panel quality, and installer expertise. With generous government rebates and improved technology, solar energy has never been more affordable — or more rewarding.

How much do solar panels cost in Sydney in 2025?

In 2025, solar panels in Sydney cost between \$3,000 – \$12,500, depending on system size and quality. Thanks to rebates and falling technology costs, solar is more accessible than ever. For most homeowners, a 6.6kW system offers the best balance between affordability and savings, with a 3–5 year payback period.

Are solar panels expensive in Sydney?

The short answer: Prices vary depending on system size, brand, quality, and installation — but the good news is, solar in Sydney is more affordable than ever. This guide will give you a clear breakdown of solar panel costs in Sydney, including: The cost of solar panels in Sydney has dropped significantly over the last decade.

Are solar panels subsidized in Australia?

Additionally, the price you pay for a solar PV system in 2023 is heavily subsidized by the Australian government's solar rebate scheme. The value of the rebate fluctuates based on Small-scale Technology Certificates (STCs).
