How to replace the battery in the EPS battery cabinet

IP65/IP55 OUTDOOR CABINET

ALUMINUM

OUTDOOR ENERGY STORAGE CABINET

OUTDOOR EQUIPMENT CABINET

Overview

What should I do if I don't use the EPS power unit?

If you do not intend to use the EPS Power Unit for a prolonged period of time, it must be switched off and kept in a safe place. We also recommend checking the battery charge level and fully charging the battery approximately once every six months. Battery lifetime depends on a number of different factors, such as usage and storage conditions.

How long does the EPS power unit Battery last?

Battery lifetime depends on a number of different factors, such as usage and storage conditions. Note that if the EPS Power Unit is stored in excessively cold or hot conditions, battery performance and lifespan may be reduced. The battery is a perishable product and charge capacity will reduce gradually with repeated use and over time.

How do I dispose of my EPS battery charger?

Please contact a Campagnolo Service Centre or Campagnolo Pro-Shop for information on how to correctly dispose of your EPS battery charger. Although the system has an IP67 water resistance rating, washing the bicycle with pressurised water or with harsh detergents is not recommended.

How to clean EPS power unit?

Use only water and neutral detergent to clean the EPS Power Unit. Do not use alcohol, acetone or solvents. In order to dispose of the EPS Power Unit correctly, comply with the applicable legislation in the country of use. **IMPORTANT!** Use only water and neutral detergent to clean the EPS Interface Unit. Do not use alcohol, acetone or solvents.

How to replace the battery in the EPS battery cabinet

If you do not intend to use the EPS Power Unit for a prolonged period of time, it must be switched off and kept in a safe place.
