Huawei Energy Storage Project in Gothenburg Sweden

Overview

How many large battery storage systems are deploying in Sweden?

Fourteen large battery storage systems (BESS) have come online in Sweden, deploying 211 MW/211 MWh for the region. Developer and optimiser Ingrid Capacity and storage owner-operator BW ESS have been working together to deliver 14 large BESS projects across the Swedish grid in tariff zones SE3 and SE4.

Is Elektra the largest battery storage project in Sweden?

However, neither of these projects had been completed and energised when RES launched the Elektra energy storage project in late April, a 20 MW/20 MWh project billed as Sweden's largest battery storage project at the time.

What is Sweden's largest energy storage investment?

Sweden's largest energy storage investment, totaling 211 MW, goes live, combining 14 sites. 14 large-scale battery storage systems (BESS) have come online in Sweden to deploy 211 MW / 211 MWh into the region.

Who is responsible for Sweden's energy grid connection?

At the time, Sweden's Minister of Climate and Environment, Romina Pourmokhtari, was responsible for overseeing the grid connection. In comments at the ceremony, Pourmokhtari said, 'It is a great honour to launch the largest investment in energy storage in the Nordics, with 211 MW of electricity currently connected to the grid.'
