# **Huawei Montenegro Energy Storage Power Plant Project**

## Overview

---

What is Huawei's smart power generation solution?

Centered on Spark architecture, Huawei's intelligent power generation solution offers digital power infrastructure, smart thermal power, smart new energy, smart hydropower, and smart nuclear power solutions at the four layers of cloud, pipe, edge, and device.

Where will EPCG install a 60 MWh power plant?

In addition to the two 60 MWh systems at the Nikšić steel mill, EPCG plans to install: a 60 MWh unit at Perućica hydropower plant, a 60 MWh unit at Pljevlja thermal power plant and a 5 MWh system at the planned Kapino Polje solar power plant (5 MW).

How many power plants does Te Pljevlja have?

It also operates the 225 MW TE Pljevlja, the country's sole thermal power plant. The utility also has several small hydropower plants and is developing a number of renewable energy projects, including Komarnica hydroelectric power plant (172 MW), WF Gvozd wind power plant (54.6 MW) and SP Briska Gora solar power plant (250 MW).

Why do power generation enterprises need new technologies?

Power generation enterprises urgently need to adopt new technologies to achieve goals of intelligent transformation.
