Huawei large energy storage vehicle manufacturer

Overview

Are Huawei & SAIC planning a new energy vehicle production base?

According to the reports, Huawei and SAIC are now penning agreements with the Lingang New Area to create a new line of energy vehicles (EV) and battery plants to power them. The aim of this agreement with the Lingang in Shanghai's free trade zone is to build the "Shangjie High-end Intelligent New Energy Vehicle Production Base".

How will SAIC & Huawei cooperate in the development of electric cars?

In China, SAIC and Huawei want to cooperate in the development of electric cars and plug-in hybrids. Under the agreement, the two companies will work together in the areas of product definition, production, supply chain management, sales and services.

Are Huawei & SAIC working on a new smart car brand?

Huawei and SAIC have jointly developed the Shangjie smart car brand, and now both parties are putting in more efforts to expand this new project via EV and battery plants. These plants will open a new production base for SAIC in China. Both SAIC and Huawei have been working for months on a new EV brand called Shangjie.

How does Huawei work with automakers?

Huawei's Yu said Tuesday the company works with automakers in three ways: Acting as a component supplier. Selling a suite of car tech products called "Huawei Inside," while the automaker designs the vehicle. Taking greater control of a "Huawei Inside" car's design, sales and marketing while the automaker manufactures the car.
