# **Huawei sells energy storage batteries in Casablanca Morocco**

## Overview

---

Are lithium battery Gigafactories a good idea in Morocco?

The establishment of lithium battery gigafactories in Morocco holds immense promise for the country's economy and energy sector. These facilities will not only produce lithium batteries for electric vehicles and renewable energy storage systems but also drive advancements in battery technology and manufacturing processes.

Will Huayou Cobalt & LG Energy Solution Co-build a battery plant in Morocco?

Huayou Cobalt and LG Energy Solution will co-build a plant in Morocco, one for 50,000 tons of LFP annually and another for 52,000 tons of lithium conversion annually. In addition to abundant phosphate reserves, Morocco also possesses metal resources like cobalt and lithium needed for battery production and has cost advantages.

Is Morocco a good country for battery production?

In addition to abundant phosphate reserves, Morocco also possesses metal resources like cobalt and lithium needed for battery production and has cost advantages. Industry estimates suggest that producing lithium batteries in Morocco offers a 36% cost advantage compared to other countries.

Which Chinese lithium battery companies are based in Morocco?

Since 2023, several Chinese lithium battery industry chain companies, including CATL, Gotion High-Tech, Sunwoda, BTR, Huayou Cobalt, CNGR Advanced Material and Tinci Materials, have collectively invested in Morocco and built factories. The battery industry chain centered around LFP is forming rapidly.
